If you find you regularly go over your data allowance you may wish to upgrade your plan. Please note charges apply for plan upgrades. Unused monthly data allowances do not carry over to the next billing period.

**Broadband speeds explained:** speeds specified represent maximum possible connection speeds. Speeds for all broadband service plans are dependent on how far you are from the local telephone exchange, configuration and quality of your phone line, quality of your broadband ADSL modem and line filter, the number and type of services being used in your neighbourhood, interference from outside sources, your computer's hardware and software set up, and the configuration of any computer you are trying to access.
